

CAPABILITY STATEMENT

Custom IT solutions for mission-critical systems
across defense, healthcare, and the enterprise.

ABOUT ORAN

For two decades, Oran Inc. has delivered secure, scalable, and mission-aligned IT solutions to the U.S. Federal Government. We combine deep technical expertise with operational insight to modernize systems, improve performance, and sustain mission-critical environments that help agencies serve the public and fulfill their missions.

COMPANY INFORMATION

Website: www.oraninc.com

CAGE Code: 53839

UEI: JMXJYLL8UD75

Socioeconomic Status: SBA Certified 8(a) until 2030, Economically Disadvantaged / Woman Owned Small Business (ED/WOSB)

CONTRACT VEHICLES

- ✦ GSA MAS (47QTCA18D009B)
- ✦ GSA 8(a) STARS III (47QTCB21D0261)
- ✦ FAA 8(a) eFast (693KA9-22-A-00366)
- ✦ MDA SHIELD (HQ085926DE470)
- ✦ NASA SEWP VI Cat B (80TECH26D1607)
- ✦ NASA SEWP Cat C (80TECH26D0367)
- ✦ Navy Seaport NexGen (N0018925R3047)

TECHNICAL APPROACH

- ✦ Data Architecture & Governance for scalable solutions.
- ✦ Cloud & DevSecOps for resilient, accelerated delivery.
- ✦ AI, Automation & Analytics for intelligent workflows and mission insight.
- ✦ Agile Delivery for rapid, iterative mission value.
- ✦ Security & Compliance aligned with NIST, FedRAMP, and Section 508.

CERTIFICATIONS

CMMI (V2.0) Maturity Level 3 – Services & Development
ISO 9001:2015 - Quality Management
ISO 20000-1:2018 - IT Service Management
ISO 27001:2022 - Information Security

NAICS CODES

541512, 541330, 541611, 541513, 541519, 518210, 541370, 541690, 541812, 519290

CORE CAPABILITIES

- ✦ Program Management
- ✦ Data Management, Data Governance, and Data Integration
- ✦ End-to-End Application Development, Modernization / Migration
- ✦ Application Operations & Maintenance (O&M) / Sustainment
- ✦ Advanced Analytics and Data Lake / Mesh / Warehouse Implementations
- ✦ GIS Data and Geospatial Analytics
- ✦ Salesforce, SharePoint, PowerApps, and O365 Solutions
- ✦ Automation, AI/ML, NLP, and RPA Implementations
- ✦ Infrastructure, Cloud, and DevSecOps
- ✦ Accessibility Roadmaps and Section 508 Compliance
- ✦ ITSM Service Desk and Operations (Tiers I-III)

WHAT SETS ORAN APART

Oran delivers measurable mission outcomes through automation-first engineering and data-driven decision-making. We integrate DevSecOps, cloud-native architectures, and advanced analytics to reduce operational risk, improve system resiliency, and accelerate delivery across complex, high-security environments.

MISSION & VISION

Mission: Improving operational efficiency of mission-critical systems through data-driven decision-making, automation, and streamlined processes aligned to mission objectives.

Vision: Enabling a more efficient government through data, automation, and mission alignment.

PROVEN EXPERIENCE

Defense Contract Management Agency (DCMA) / Defense Information Systems Agency (DISA): Since 2008, Oran has developed, modernized, and sustained 120+ mission-critical applications with 99.99% availability, modernizing legacy workflows through MS Power Platform while delivering enterprise database, data warehouse, API, and BI services.

Federal Aviation Administration (FAA): Oran supports FAA's AWS GovCloud EIM data platform, processing 7.5 million queries monthly across 18 programs and managing 4 PB of data and 135+ assets, with streaming pipelines, AI/ML, analytics, and enterprise data governance.

Department of the Interior (DOI): Oran delivered enterprise data governance, relational and geospatial data engineering, automated pipelines, legacy data migration, and ArcGIS/Power BI analytics while strengthening security processes and supporting ATO readiness.

Centers for Medicare & Medicaid Services (CMS): Since 2010, Oran has delivered healthcare IT modernization and is developing a next-generation Government-owned, non-proprietary platform using open-source, cloud-native services, configurable routing, APIs, and automation.

Treasury, Office of the Comptroller of the Currency (OCC): Oran sustains 23 legacy SAS ETL data products while modernizing them to AWS and Snowflake using automated pipelines, CI/CD, data governance, and standardized migration patterns to improve reliability and scalability.

U.S. Food and Drug Administration (FDA): Oran supports FDA CDER and HFP IT service delivery through ServiceNow-based intake, validation, escalation, reporting, and portfolio management while standardizing and automating workflows to improve traceability, transparency, and service delivery.

U.S. Department of Agriculture: Oran supports full-lifecycle O&M and targeted DM&E across 200+ interconnected NRCS systems, including AWS migration, legacy .NET modernization, security remediation, application enhancements, and mission-critical production support.

U.S. Air Force: Oran integrated program cost and performance data into Power BI portfolio views, enabling leaders to track execution, identify high-risk areas, and strengthen portfolio planning, budgeting, funding, and risk mitigation.
